

DILYAN MEZEV

FRONT-END DEVELOPER | UI/UX DESIGNER

Bulgaria | dilyanmezev@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

React developer with production experience building web applications for clients, previously at Beter Bij Ons. Background in UI/UX design gave me a strong eye for usability and accessibility when translating designs into interfaces. Also experienced with Angular and TypeScript from a prior internship at Lirex ST.

TECHNICAL SKILLS

React	React Native	Next.js	JavaScript
Angular	TypeScript	Tailwind CSS	Appwrite/Supabase
UI / UX Design	Figma	HTML/CSS	Version Control (GitHub)

WORK EXPERIENCE

Beter Bij Ons **Feb 2026 - Jul 2026**

React Developer and UI/UX Designer - Intern **Sittard, NL**

- Designed and built a self-service support flow for the Streek platform - a role-based chatbot that routes producers, shop managers, and consumers to the right answer, escalating to an auto-generated ticket in Microsoft Teams when no answer fits, cutting the volume of questions handled manually by the team.
- Built the front-end in React, connected to a custom backend API and Appwrite for auth and data.
- Also contributed to the wider Streek desktop platform beyond the support system, including the marketplace and the registration flow - working across design and front-end build.

Lirex ST **Sep 2024 - Feb 2025**

Angular Developer and UI/UX Designer - Intern **Sofia, BG**

- Improved accessibility and usability by creating and implementing personalization settings in Figma (font size selection, top to side bar toggle, and theme colour customisation).
- Boosted user experience and streamlined collaboration by integrating the new features into Angular with TypeScript.
- Tested and refined components with cross-functional teams, improving overall platform usability.

EDUCATION

Fontys University of Applied Sciences **Sep 2022 - Jul 2026**

Bachelor, ICT **Eindhoven, NL**

- Media Design / Human Centred Design
- Smart Mobile Specialization

Chung Ang University **Mar 2025 - Jun 2025**

Study Abroad **Seoul, KR**

PERSONAL PROJECTS

Packaway App **Nov 2025**

Built a React Native app that turns trip details into a smart packing list in minutes. **Eindhoven, NL**
